HEALTH & SAFETY

HEALTH & SAFETY

Curtis Stout, Inc. began operations in 1947. For 73 years, we have been honored to serve our business partners, and thousands of loyal customers. While we have evolved and grown substantially, we still hold true to our founder's belief in work ethic, honesty, and professionalism. We have 130 employees, spanning twelve offices across seven southern states, all working to uphold our core values and integrity.

Our company has been involved in the electrical construction industry since 1947. Our current capabilities range across multiple segments of construction; utility, electrical, mechanical, lighting, audio/visual, low voltage, personal protective equipment, and building wellness systems.

Our Health & Safety Division was established in 2020, following the emergence of the COVID-19 pandemic. We now possess the ability to provide our existing and future customer base with products and services that are proven to fight and kill COVID-19.

We look forward to working with you and your company to provide a Clean • Healthy • Safe 're-entry and beyond' for the public sector.

Ron C. Smith
President/CEO

BUILDING WELLNESS

- Indoor Air Quality: Non-Ozone Producing Ionization
- Indoor Air Quality Monitoring
- Thermal Temperature Scanning
- Disinfection Lighting
- Facility Audits
- Turn-Key Solutions

MECHANICAL SYSTEMS

- Design Review to Verify Engineering
- Energy and Building Performance Benchmarking
- Commissioning Verification Services
- Retro-Commissioning Services
 - a) Focus on Comfort and Performance
 - b) Focus on Energy
 - 1) Provide Energy Benchmarking of Facility
 - 2) Provide Short- and Long-Term Energy Performance and Conservation Recommendations
 - 3) For Each Measure Provide Prioritization, Cost, Benefit and Payback
- Test and Balancing of Air and Water System
- Create As-Built Documentation and Facility Systems Operation Manual
- Ongoing Commissioning to Verify System Is Maintaining Building Performance
- Control Systems
- Facility Audits

** In partnership with Purtle Energy Services*

LIGHTING SYSTEMS

- LED New Construction Projects
- LED Retrofit
- Lighting Controls / Dimming
- Emergency Lighting / Life Safety Studies
- Facility Audits
- Lighting Layouts & Photometrics

ELECTRICAL SYSTEMS

- Building Automation
- Complete Facility Metering and Verification
- Controls Overlay/ Analytics
- Meter Consolidation / Demand Reduction / Utility Bill Analysis
- Power Quality / Power Factor Correction
- Arc Flash Studies
- Emergency Power / Generators / Uninterruptable Power Supply (UPS) Systems
- Utility Incentive Strategies / Consultation
- Compressed Air Systems
- Solar Power
- Facility Audits

AUDIO/VISUAL SYSTEMS

- Multi-Media Systems
- Systems Controls
- System Design
- Site Installation
- Multi-Media Event Hosting

LOW VOLTAGE SYSTEMS

- Video Surveillance
- Access Controls
- Fiber Optics
- Paging / Intercom Systems
- Structured Cabling
- Phone Systems
- Access Points / Wi-Fi
- Consulting / Engineering
- Turn-Key Solutions
- Facility Audits
